---

I am a full-stack .NET developer in C#, and an Army veteran. My drive is to understand how things work, I became a developer to make software better, and I'm here because this is where I can help do that.

Technical Skills

- Languages - **C# | Javascript | HTML5 | CSS3**
- Tools - **ASP.NET Core MVC | Bootstrap | JQuery | Node | Postgres | SQL**
- Skills - **Agile Work Flow | Pair/Mob Programming | Code Review | Git Version Control**
- Misc. - **Identity 2.0 | Entity Framework | OAuth | Azure | MVC | Razor Pages**

Projects

StickerFire - **ASP.NET Core | Entity Framework | Identity 2.0 | Azure Blob Storage | C#**
> Built from scratch with no scaffolding, we built in User Authentication and Azure blob storage

BusMall Web Store - **ASP.NET Core | Razor | Bootstrap**
> A hypothetic web store.

Casino War - **Javascript | HTML5 | CSS3**
> A small game based on the popular casino card game.

Construction Where - **Javascript | Google Map API | Seattle Open Data Project API**
> An app that displays the most recent construction permits for the city of Seattle on a map.

Education
